

# hands on role

A strong pair of legs (van drivers) and a healthy sense of humour were the main criteria applied to recruitment in the early days of Abel & Cole. The latter still applies but the business has always been serious about its organic principles and its ethical approach to its suppliers and customers. With an annual turnover in excess of £13m, 22,000 deliveries a week and ambitious growth plans Abel & Cole are now looking to strengthen their senior management team with the appointment of a leading professional in the role of **Technical Manager**.

## The Role

- ◆ The technical expert for all agronomic and quality matters within the business.
- ◆ Work with growers and producers to ensure that all produce adheres to the company's principles of organic production and sustainable development.
- ◆ Use your technical experience to develop the company's QA systems and procedures.

## The Person

- ◆ Able to demonstrate a thorough understanding of the principles of organic production.
- ◆ Hold a relevant degree plus recognised vocational qualifications.
- ◆ Be able to provide a clear and demonstrable track record of achievement built on at least 10 years relevant experience.
- ◆ Have good communication and presentation skills enabling you to translate the company's philosophy to its supply base.
- ◆ Possess a clear understanding of the workings and logistics of the whole of the fresh food supply chain.
